Publishing Has Become Essential to the Growth Every Business

One of the fundamental and important takeaways from Forbes’s recent report is that
sharing is essential for business growth. We at MyDeliv, Inc. couldn’t agree more. As a result,
we could see many of the more than 300 marketing executives Forbes surveyed as part of

our research.

Of the 96 percent of respondents that agreed, “the quality and structure of our marketing content is

vital to achieving their growth goals and increasingly defines the job of the CMO.” Not only

is it also noted by more than 70 percent that the “effectiveness of our marketing content

impacts their ability to drive top-line growth with digital, social and mobile

experiences supporting core branding, demand generation, and value-selling programs.”
